

Tactical-Flexible Network / Digital Video Cables

RJ45 Plug to RJ45 Plug

Tactical Ethercon to Ethercon

Category 5E Professional Tactical Cables

West Penn Wire Cat5E Tactical Cables are fully shielded cables and are ideal for anyone who needs extra protection, but doesn't want to sacrifice the flexibility that comes with a smaller diameter cable.

- > Tactical-grade professional cables
- > Ultra-flexible rubber jacket provides heavy-duty protection without compromising flexibility
- > Coils up like a high-quality microphone cable
- > Perfect for applications where extra protection is needed
- > Available with booted RJ45 and tactical locking Ethernet

RJ45 Plug to RJ45 Plug

Category 6 Super Cat Professional Tactical Cables

Not unlike the "Man of Steel" himself, the Cat6 Tactical cables are darn near indestructible. With their ultra-durable rubber jackets, these cables are ready for the harshest touring conditions. You simply won't find a better cable for the job.

- > Our highest-quality tactical professional cables
- > Ultra-durable rubber jacketing provides ultimate cable protection
- > Individually wrapped + coated twisted pairs
- > Perfect for mission-critical applications
- > Available with booted RJ45 and tactical locking Ethernet
